

ENGINEERING AND AUTOMATION PVT LTD

Specialist in Testing & Assembly Line automation

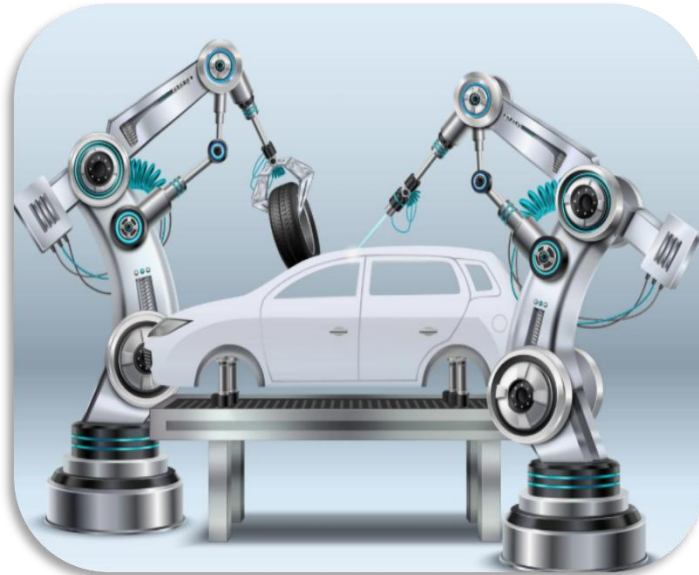

www.classultimate.in

About Us

We are doing industrial automation on turnkey basis. We provide end-to-end manufacturing and installation of automated machines that reduce downtime with latest technical advancements and competitive edge. We offer Engineering solution for Assembly Line automation, PCB Testing, Machining automation, Performance testing, Leak testing, End of the Line inspection equipment etc...

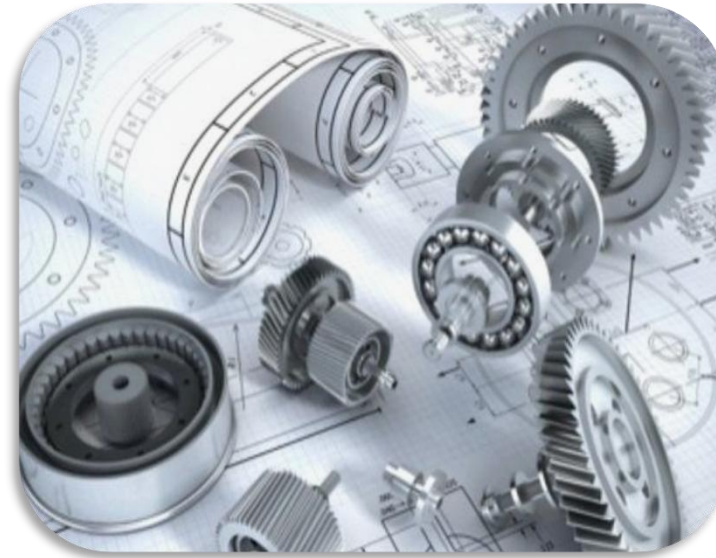

We Provide Solution for

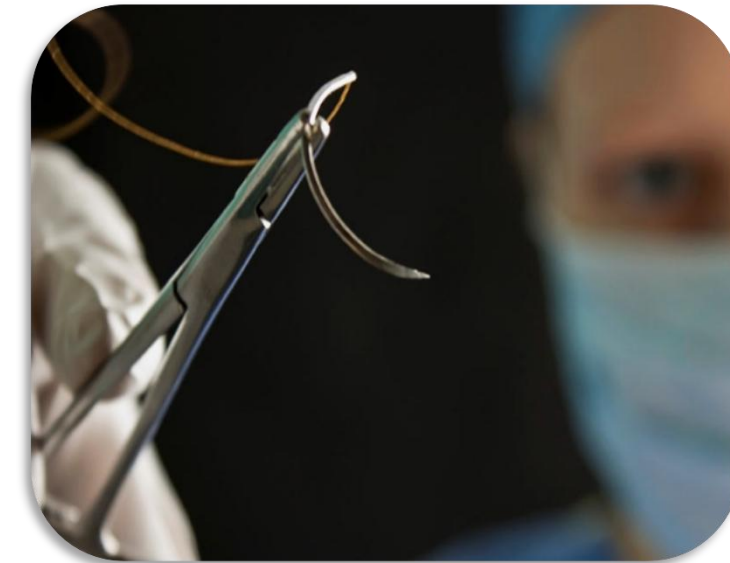

Automotive parts Manufacturers

We are providing competitive solutions to our customers. Our machines are designed to produce precision parts, provide shorter cycle time and enhanced efficiency.

Engineering product Manufacturers

General Engineering is a wide-ranging industry with varying requirements. Our machines can suit every need with better accuracy, speed and reliability.

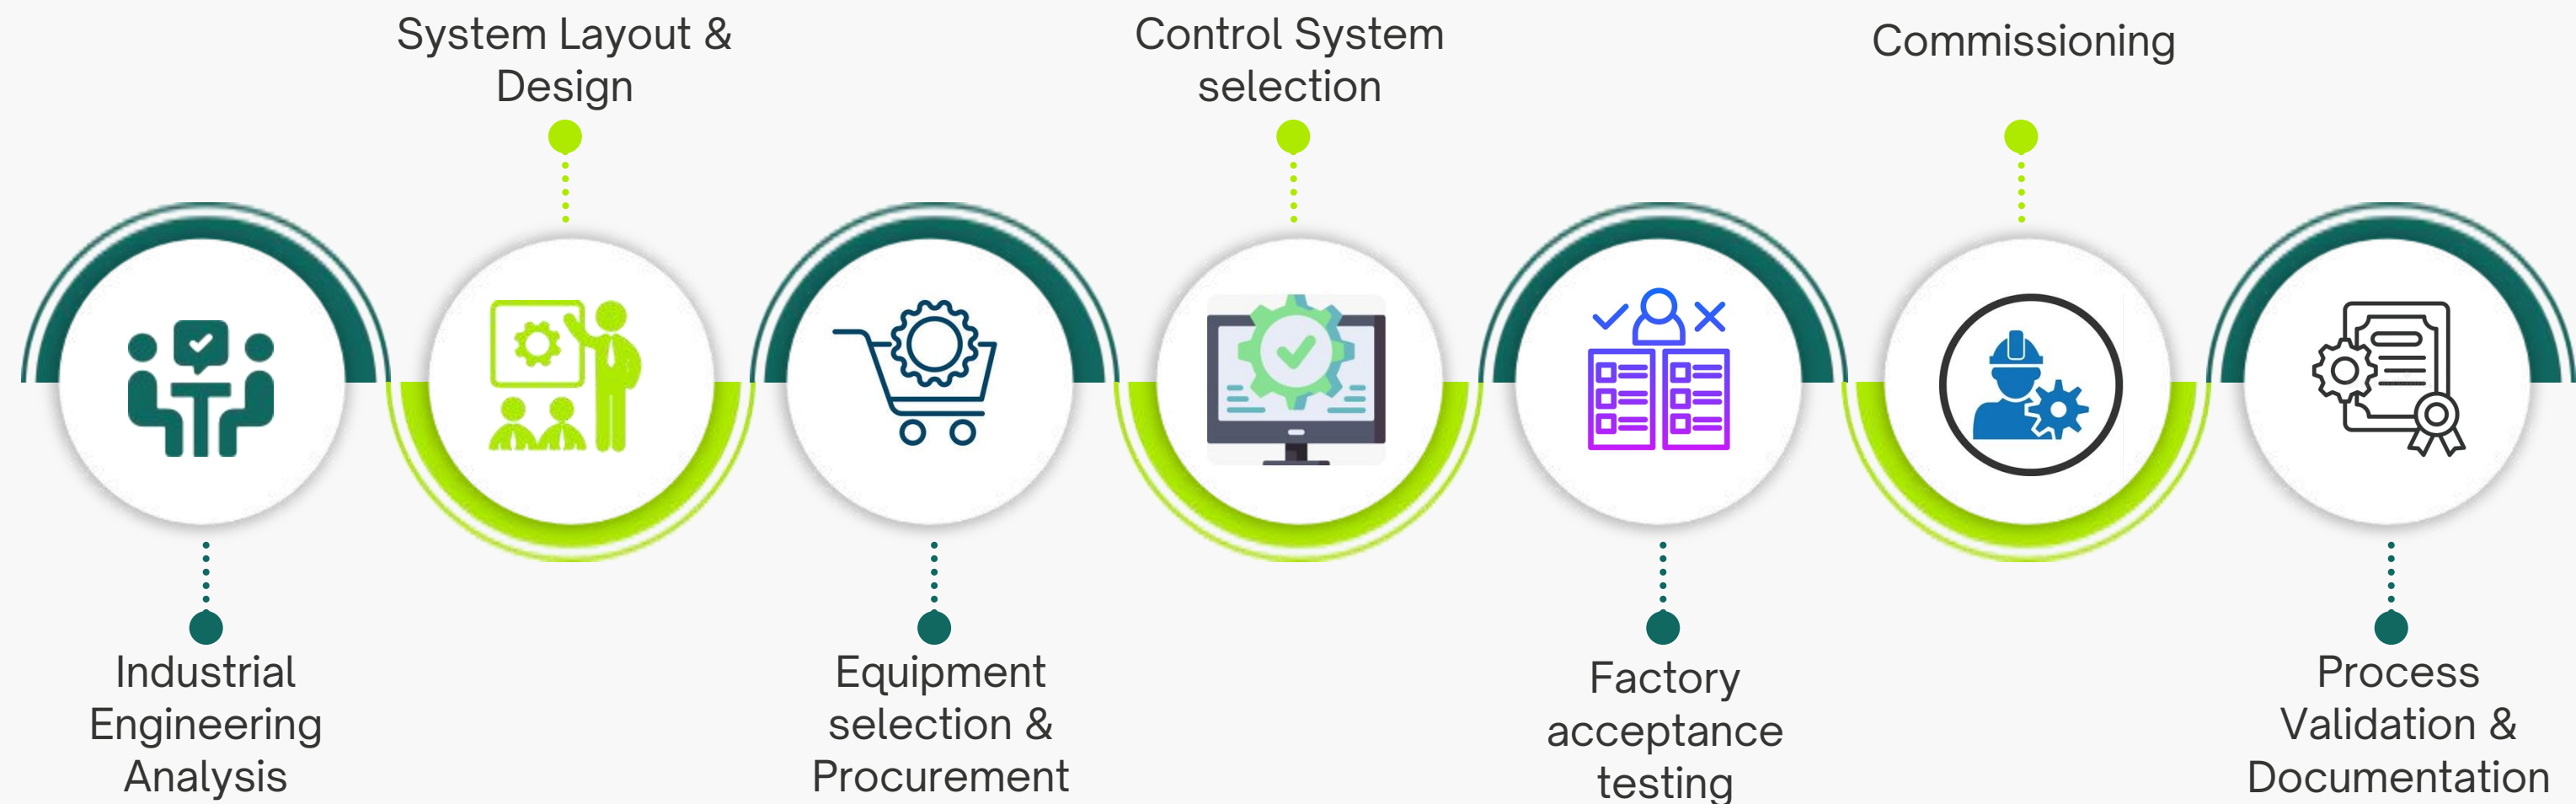

Surgical Needle manufacturers

Medical industry require high level of precision. Our machines deliver such requirements with ease along with accuracy and versatility.

Our Work Methodology

From design to Commissioning we will take care of all process

Our Team

1. Operations Head

1. *D. Jayakumar:* Leads and oversees all operational aspects of the company.

2. Finance and Procurement

1. *Edward:* Responsible for managing the company's finances and procurement processes.

3. Production and Project Management

1. *Alex:* Oversees production, assembly, and the management of various projects.

1. Assembly and Machined Components Team

1. *Palanisamy:* Manages assembly and is specifically responsible for machined components.

2. *Raghupathi*

3. *Alwyn*

These team members work on assembling products as well as assist with machined components, under the direction of Palanisamy.

4. Design Department

1. *Abish:* Heads the design department, focusing on creating and innovating automation solutions.

1. *Charles:* Assists in designing processes and tools, working closely under Abish.

5. Electrical Team

1. *Rajkumar:* Leads the electrical team, handling all electrical components and systems for projects.

1. *Arul*

2. *Raja*

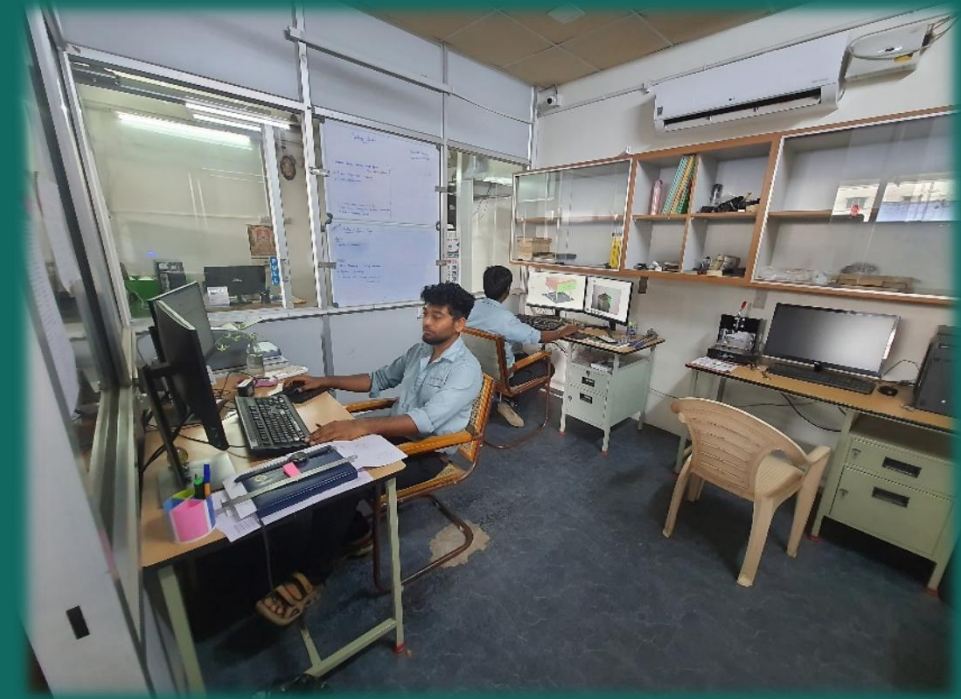

Team members specialize in electrical aspects of automation projects, reporting to Rajkumar.

Our Facility

Machine Shop

Design

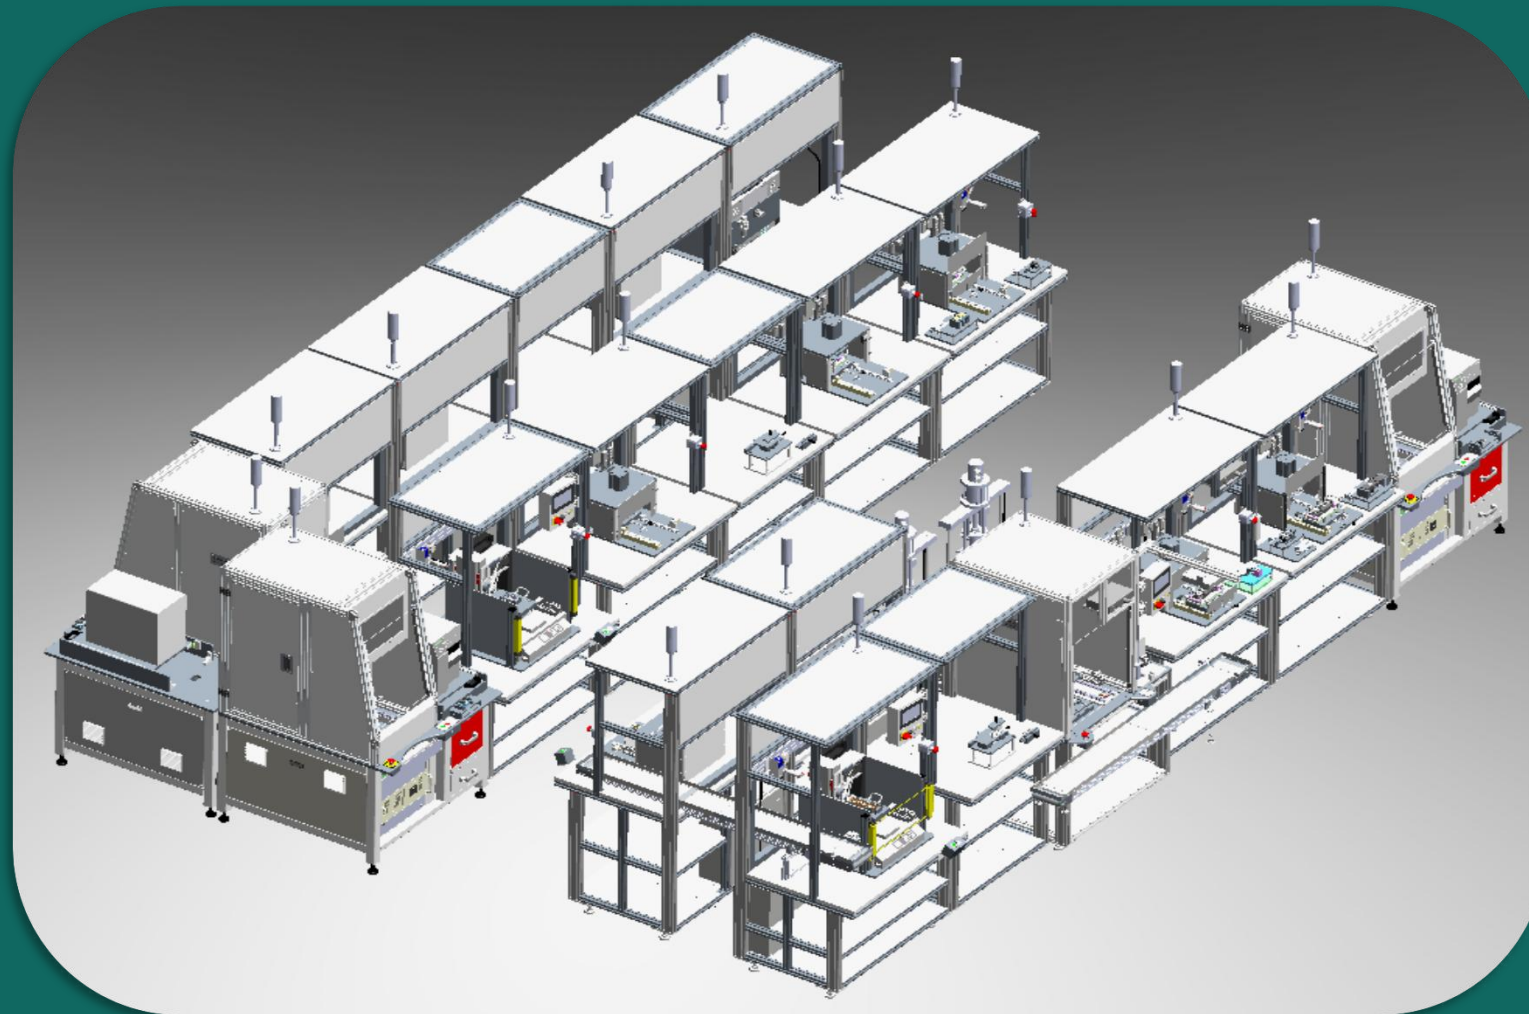

Assembly

Stores

Our Machines

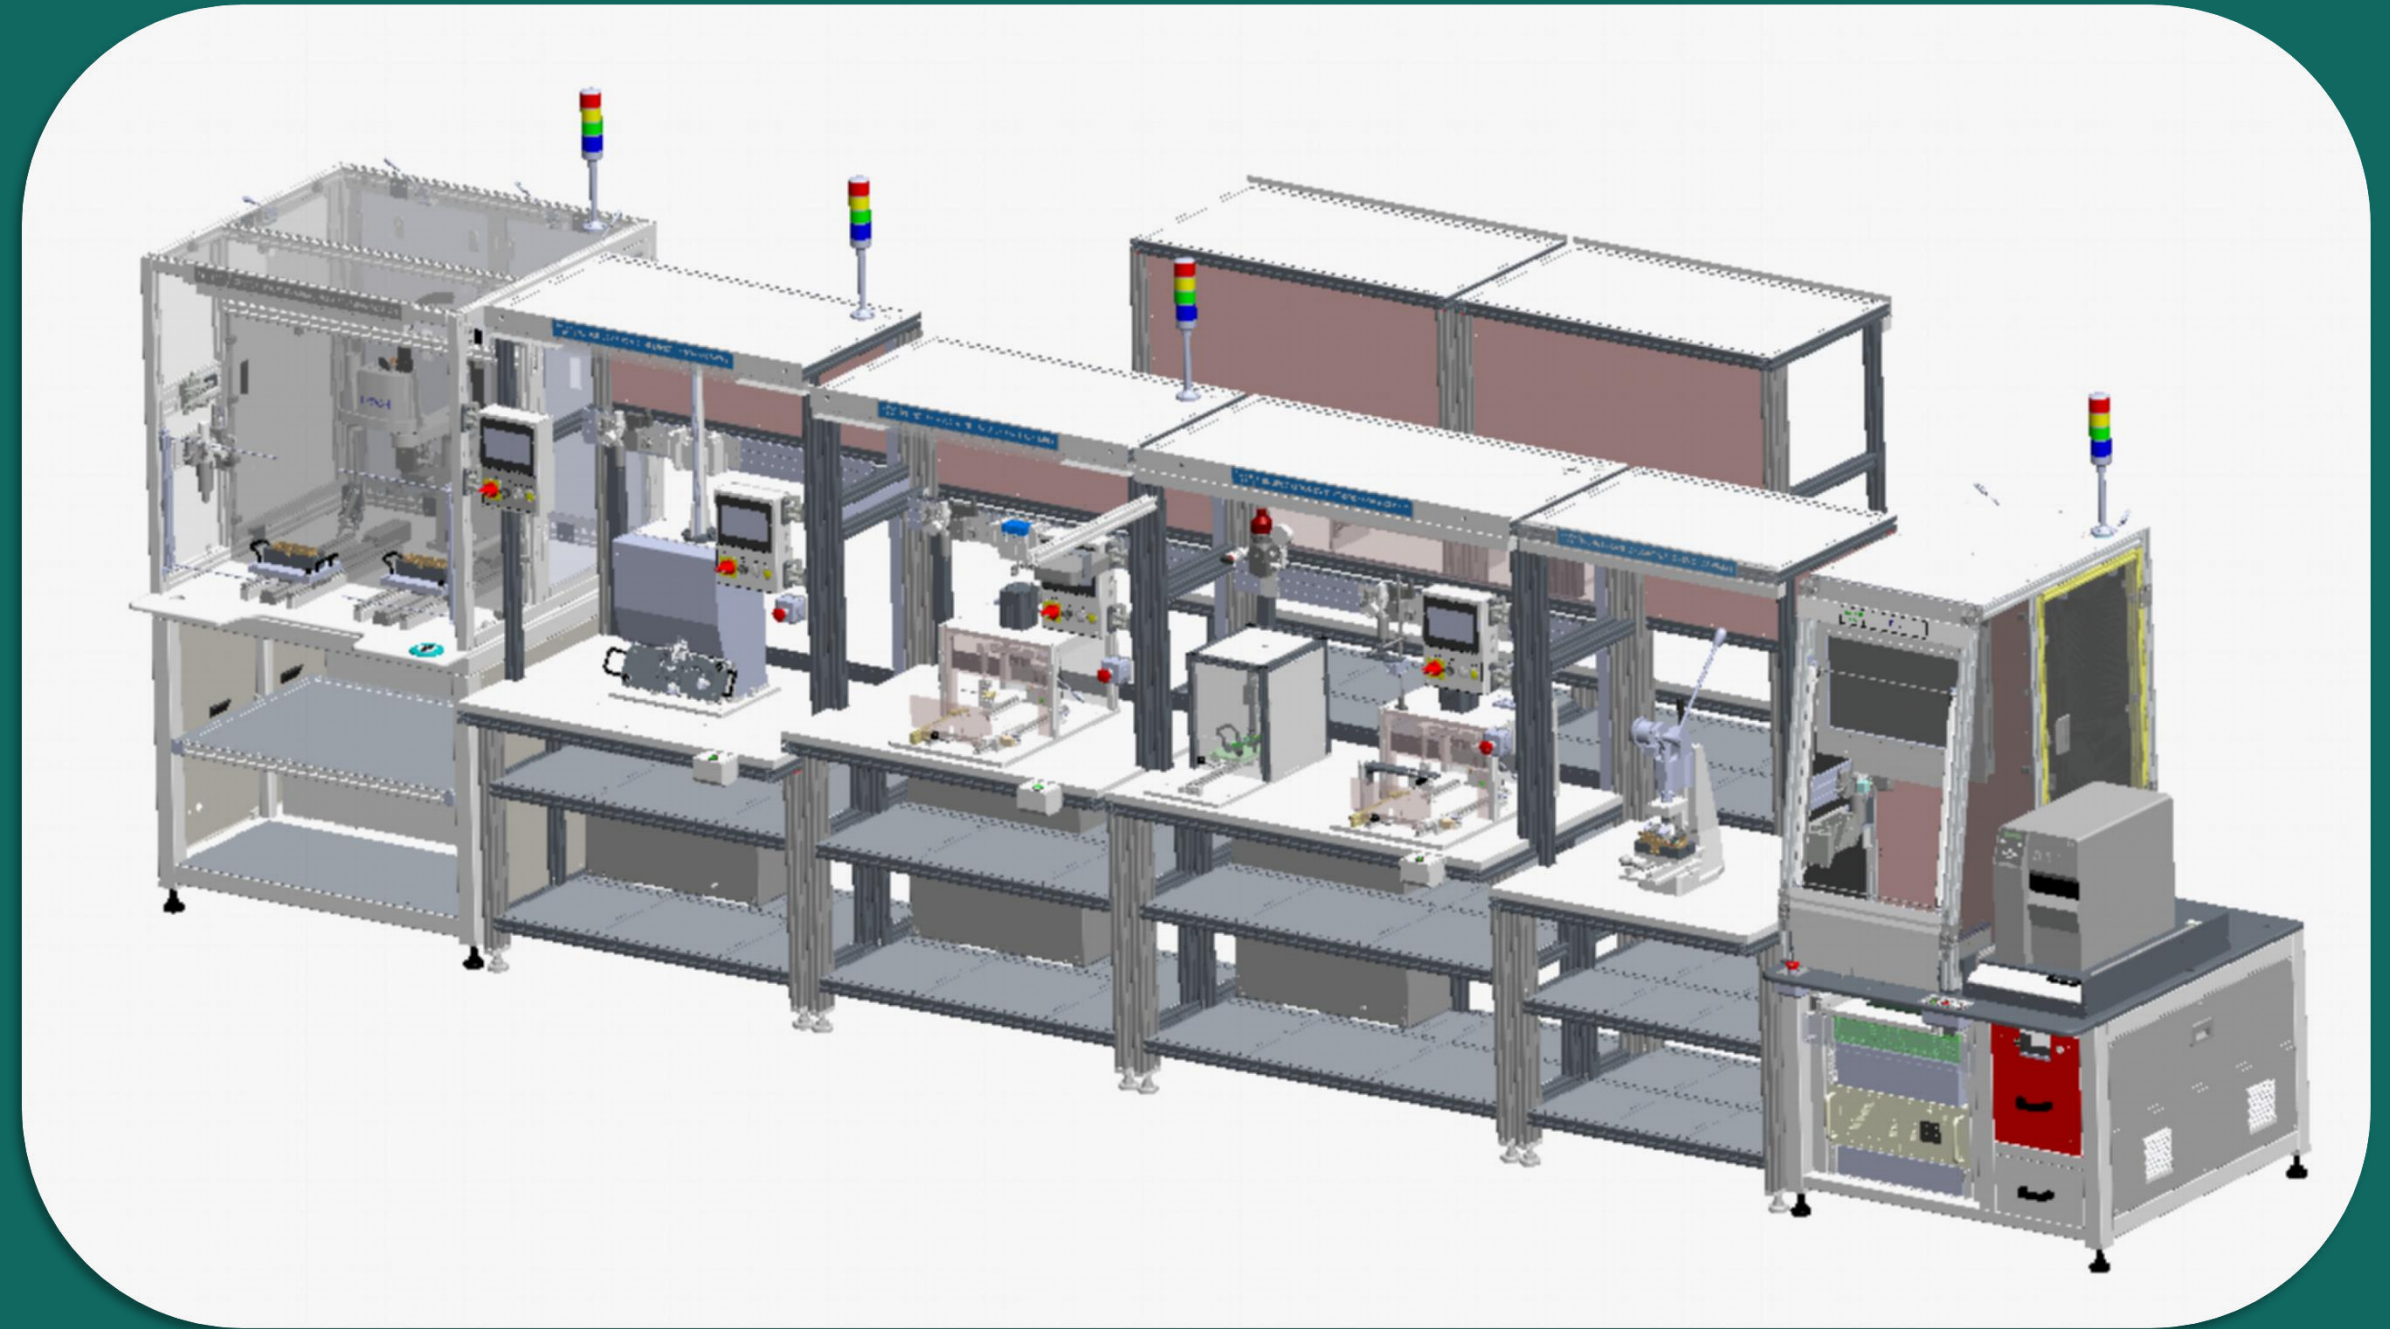

CL-4 AUTOMOTIVE SRC ASSEMBLY LINE
CUSTOMER - KOSTAL

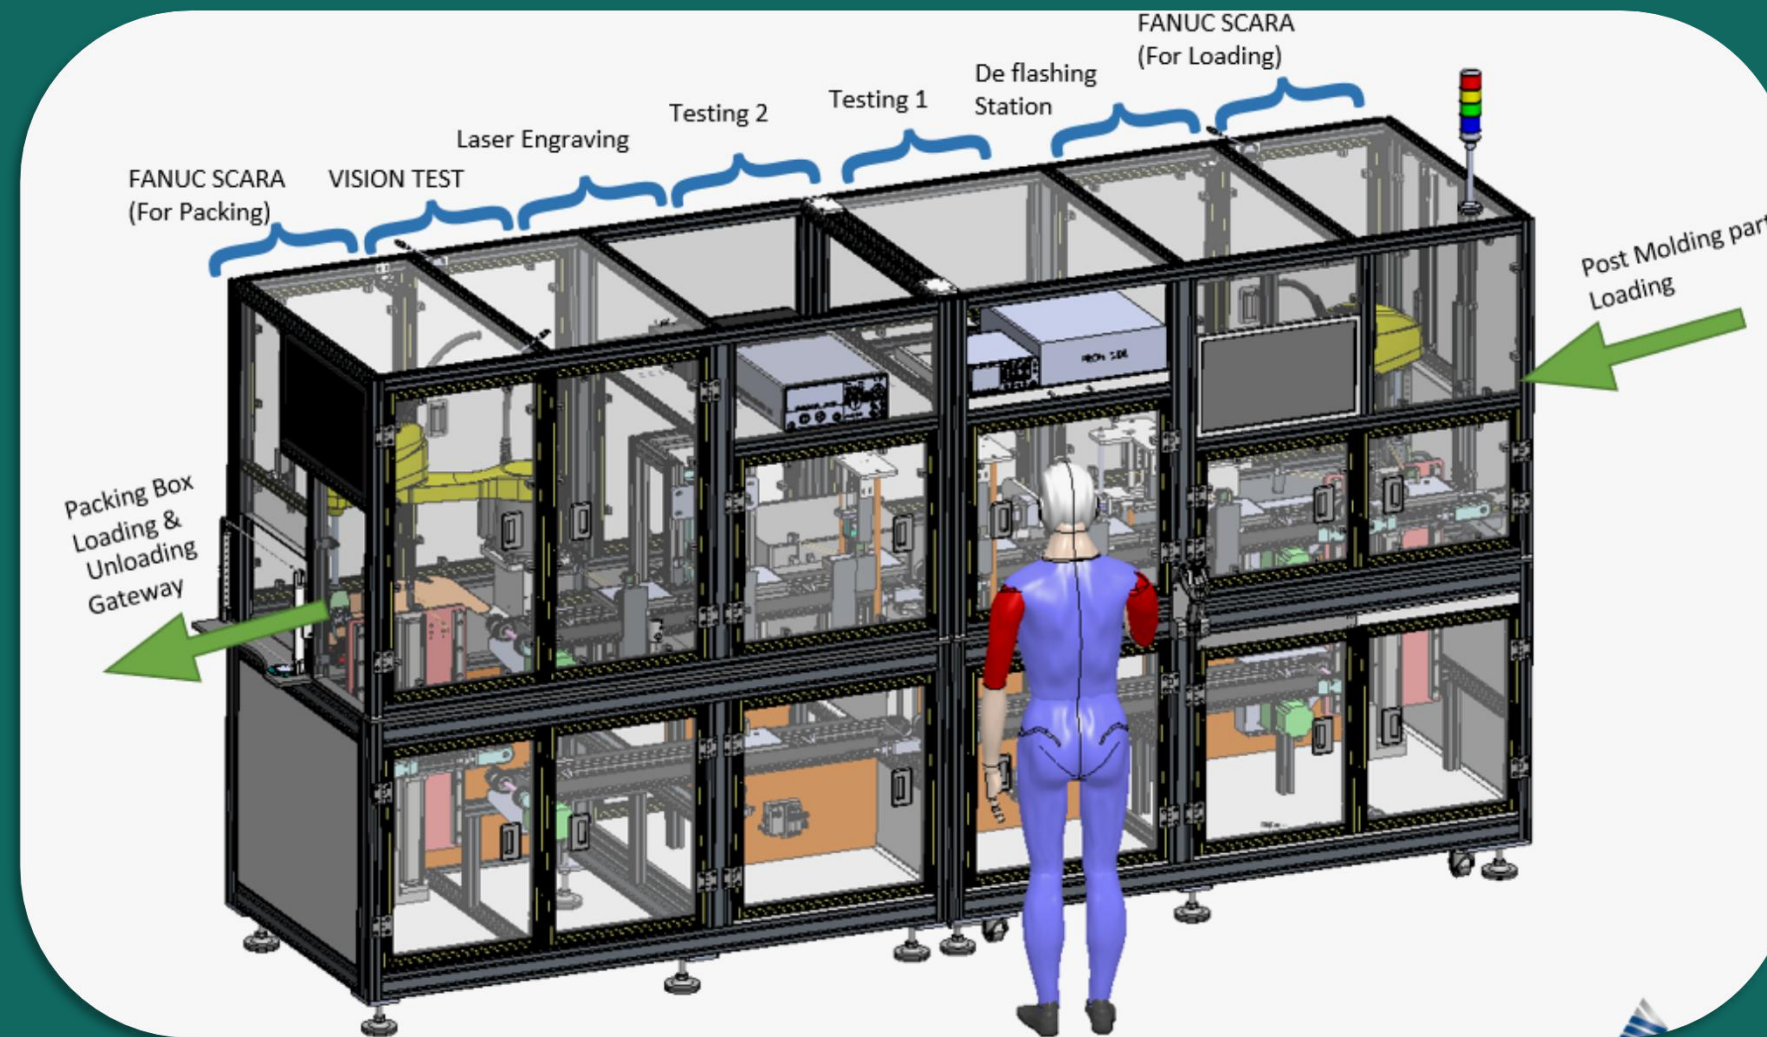

Our Machines

QU2i AUTOMOTIVE PWS ASSEMBLY LINE
CUSTOMER - KOSTAL

Our Machines

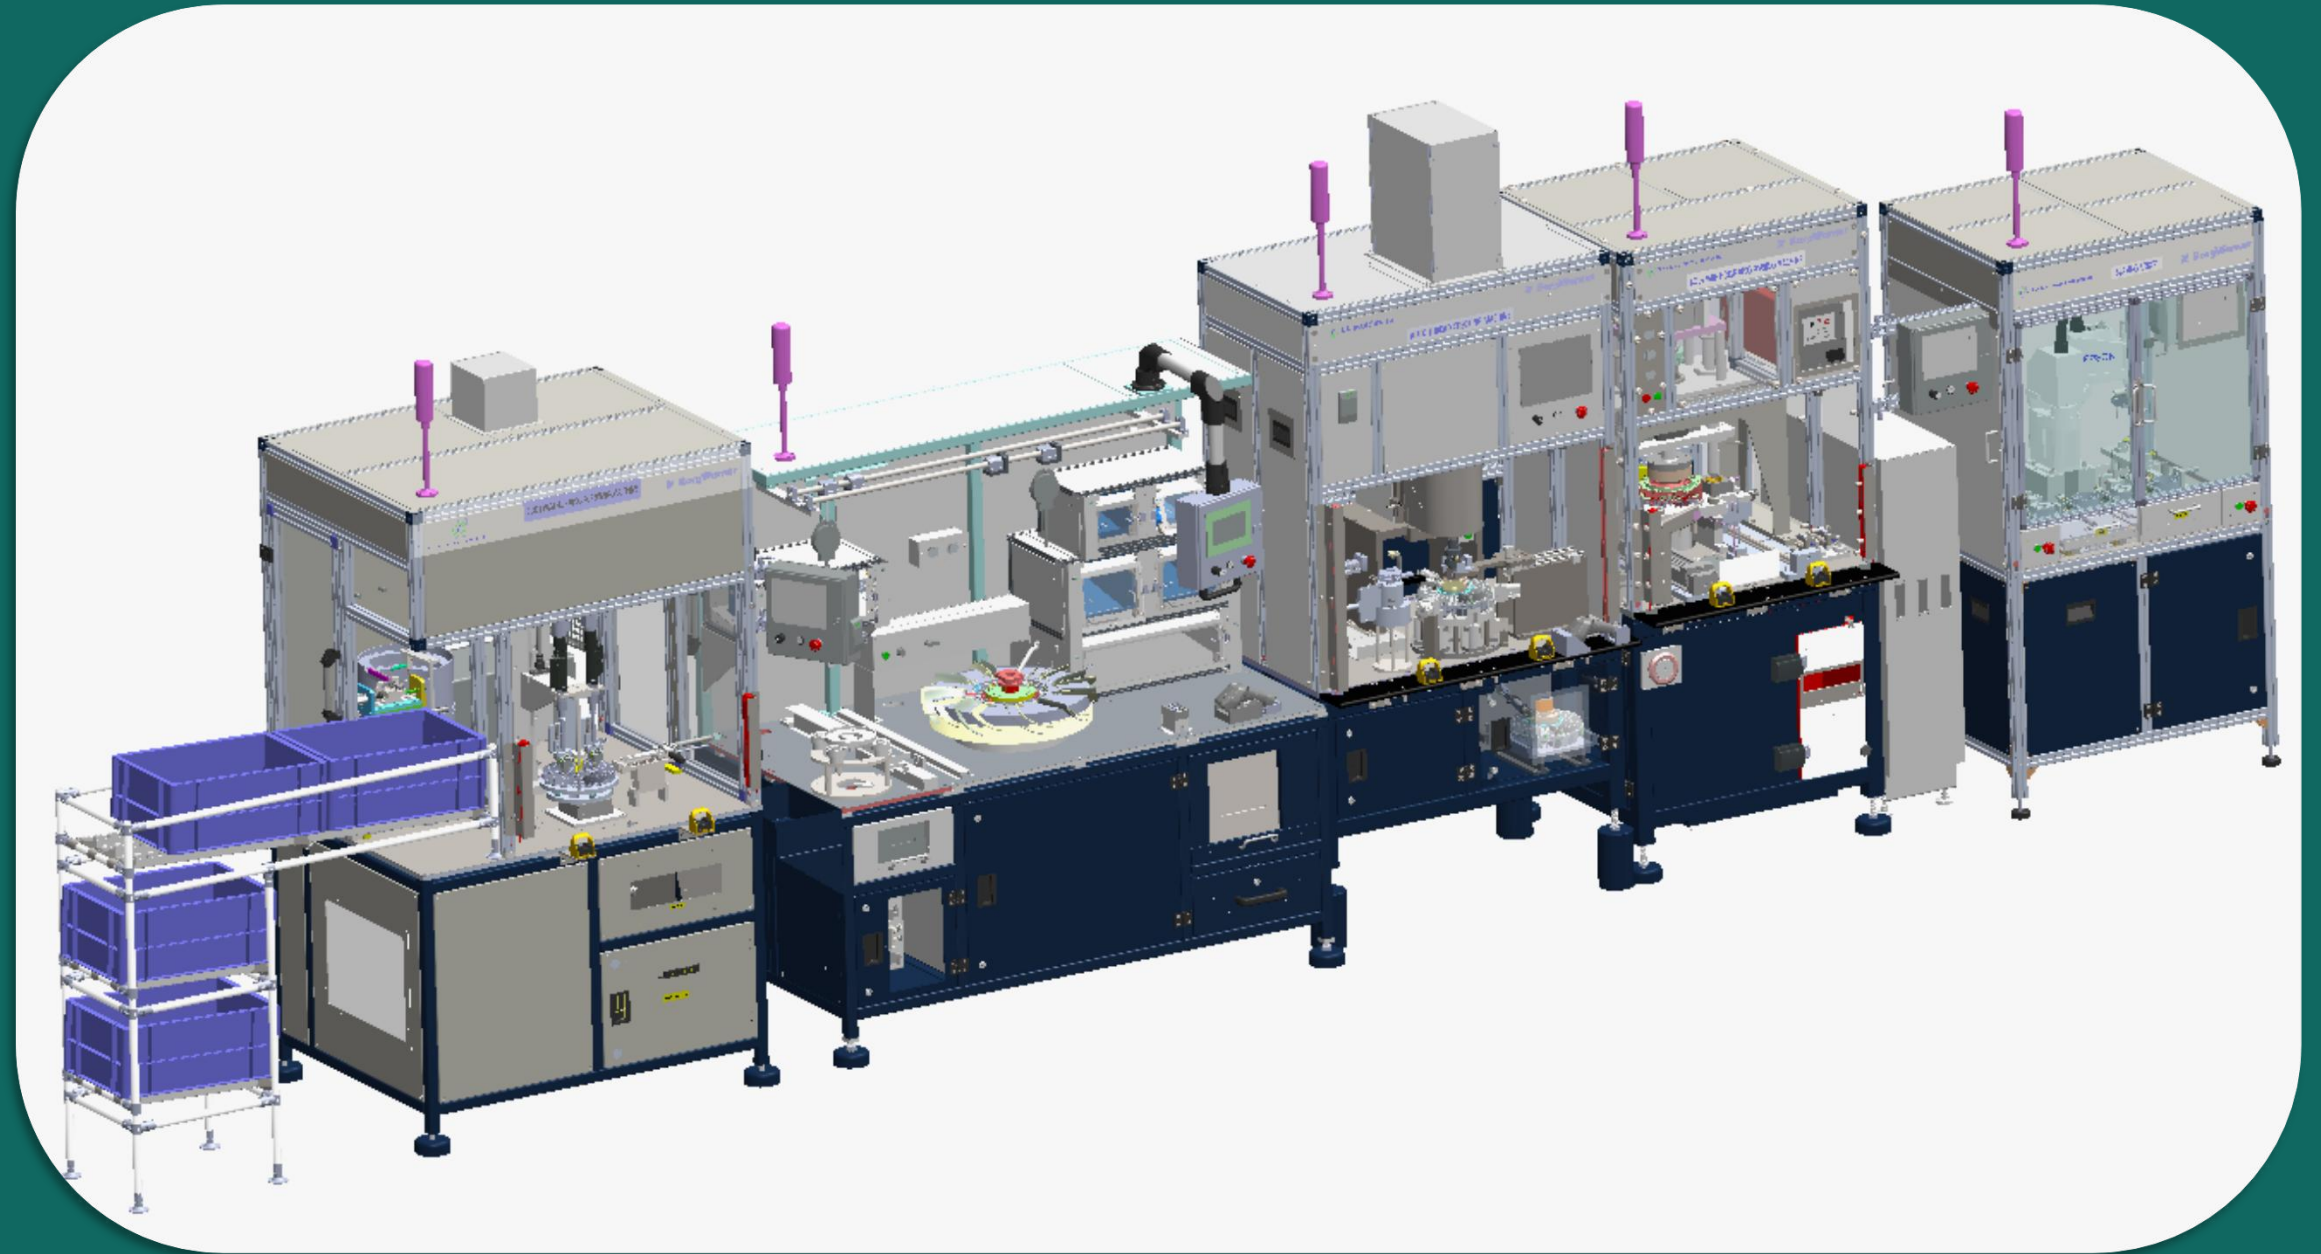

SOLENOID COIL TESTING AUTOMATION - EMERSON

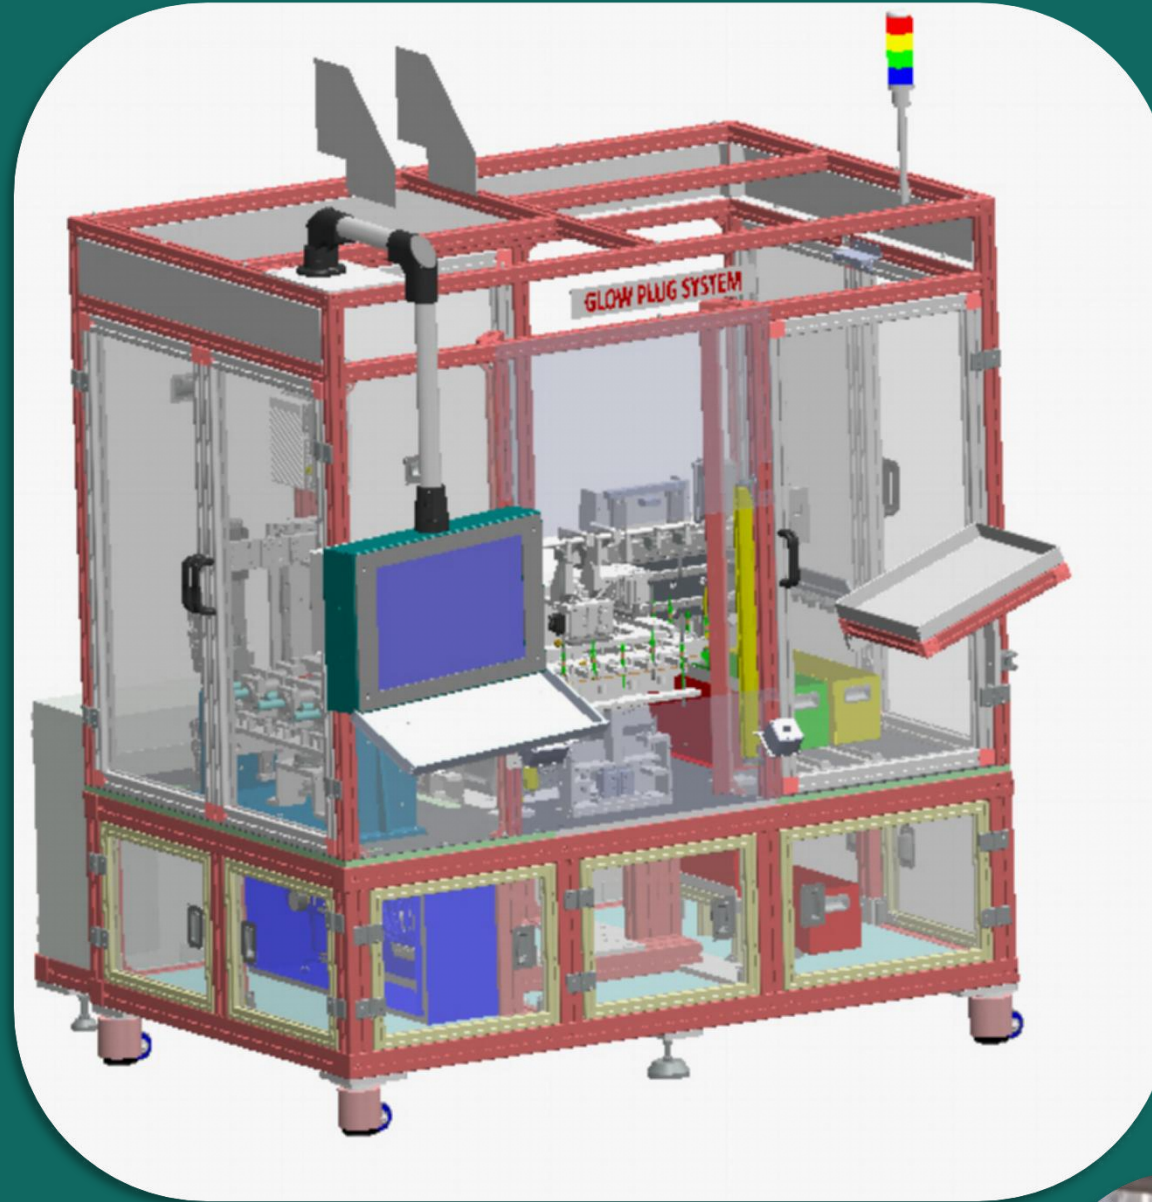

Our Machines

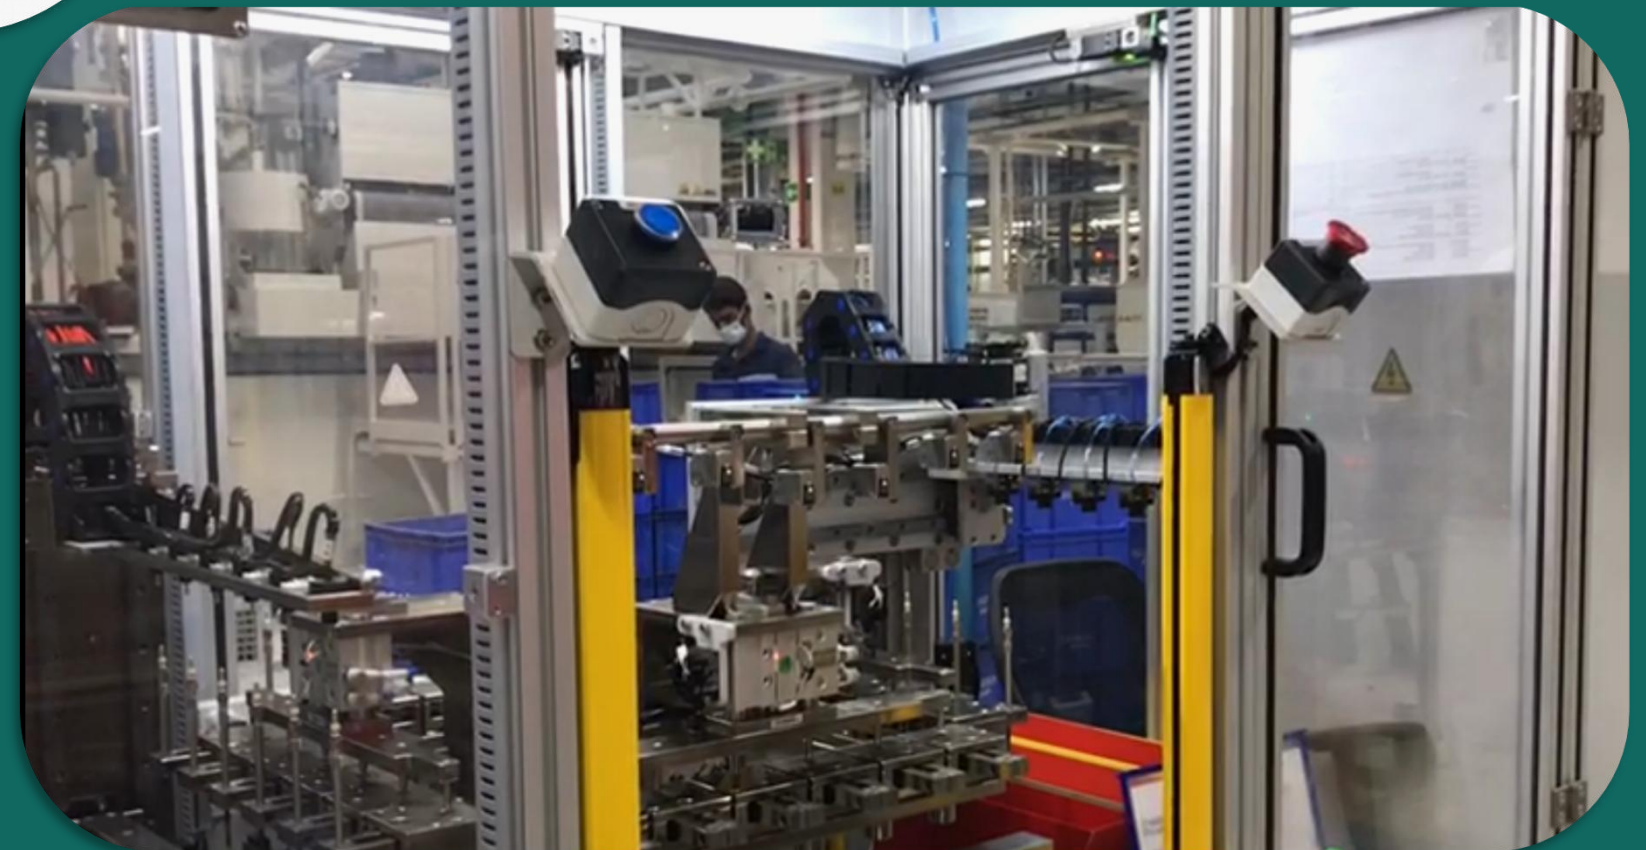

VISCOTRONIC FAN ASSY LINE
CUSTOMER - BORGWARNER

Our Machines

**AUTOMOTIVE COMPONENT GLOW PLUG
PERFORMANCE TEST
CUSTOMER – BOSCH**

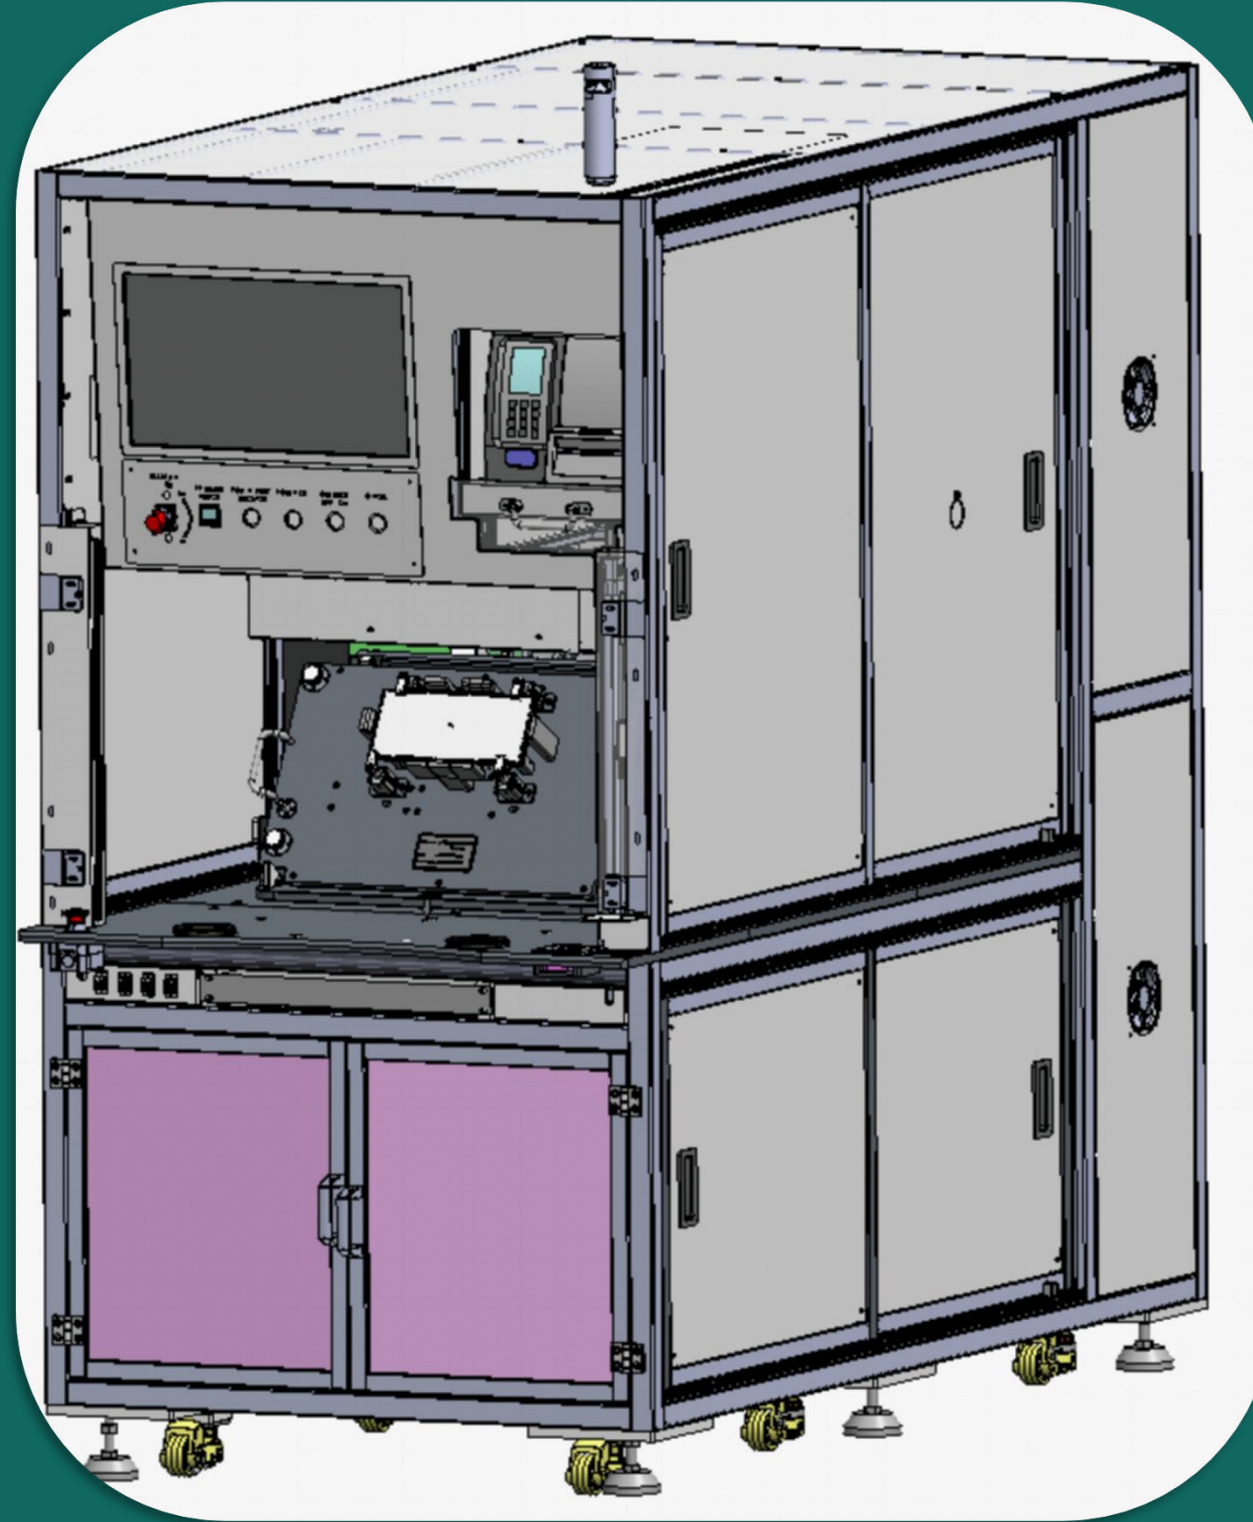

Our Machines

SMARTMETER PCB FLASHING STATION – BOSCH

Our Machines

AUTOMOTIVE INSTRUMENT CLUSTER EOLT
CUSTOMER – VISTEON

THANK YOU
